Career Objective

To contribute to innovative engineering projects by combining my mechatronics background with practical experience in electrical systems, automation, and machine tools, while growing as a technology-driven engineering professional and to secure a challenging engineering position where I can utilize my knowledge of PLC programming, CNC systems, and electrical design to contribute to organizational success while continuously developing my technical expertise.

Work Experience

- **LMW - Machine Tool Division** — *Feb 2025 - Present*
  Research and Development - Engineer
  - Developed and tested PLC programs for machine automation.
  - CNC Troubleshooting
  - Designed electrical schematics using EPLAN.
  - Assisted in panel design
  - Defect Enhancement and Management System
  - Created BOMs, SOPs, and technical documentation.
  - Supported functional testing, and customer-specific customization activities.
  - Conducted root cause analysis and implemented design improvements to enhance machine performance and reliability

- **MARATHWADA AUTO COMPO PVT LTD - AITG** — *May 2024 - Jan 2025*
  Maintenance - Graduate Engineer Trainee
  - Preventive and Breakdown Maintenance.
  - Diagnosed and resolved electrical and pneumatic faults.
  - Worked with CNC machines, robots and production equipment to minimize downtime.
  - Improved equipment reliability through root-cause analysis and corrective actions.
  - Maintained maintenance records, spare parts inventory, and equipment documentation.
  - MTBF & MTTR Analysis
  - TPM & Continuous Improvement
  - Assisted in the installation, commissioning, and validation of new equipment and production lines.

Skills

- PLC Programming (Fanuc, Siemens)
- CNC Troubleshooting
- Circuit Design (Eplan Electric, Pro panel)
- Panel Design
- Documentation (SOP's, Tech briefs)
- BOM Creation
- Self-Driven
- Problem Solving
- Curious Learner
- Blog Writing

Education

B.E Mechatronics Engineering *2020-2024*
Sri Krishna College of Engineering and Technology, Coimbatore
CGPA: 8.68

Central Board of Secondary Education - Class 12 *2020*
The Ashok Leyland School, Hosur
Percentage: 76.4%

Projects & publications

Design and Fabrication of Facade cleaning minibot *Jan 2023 - Apr 2023*

Design and Fabrication of Thermal Heat Resistance Coating Using a Bot in Heat Furnace *Dec 2023 - Mar 2024*

Performance Comparison of Domestic Refrigeration System with Latent Heat Storage Materials [DOI: 10.1109/STCR51658.2021.9588998] *IEEE, Oct 2021*

Innovative Study on Friction Stir Welding [DOI: https://doi.org/10.1063/5.0175891] *American Institute of Physics, Dec 2023*

Internship

Inplant Trainee *Feb 2022 - March 2022*
Ashok Leyland, Unit-1, Hosur
Engine Assembly
